ACTIVE NURTURE DRIPS	PRICING POLICY	CUSTOMER SHIELD	YELP CHANNEL
4 Sequences	**Zero Promos**	**3-Layer Circuit Breaker**	**Pure Email Relay**
Yelp, Meta, Web & Recurring	100% Full-Price Value Messaging	Instant Refund & Complaint Freeze	Native In-App Chat Delivery

1. Addressing Client Concerns Directly

Non-Negotiable Architecture

LEAD NURTURING

Concern: "Automations built out for nurturing leads with automatic messages"

Resolved: Deployed 4 dedicated automated sequences: 2 for Yelp leads (24h/72h quote follow-ups + 48h/Day 5 revival), 1 for Meta/Web leads (30-day 6-touch sequence), and 1 for past clients (14-day/21-day recurring upsell).

SAFETY SHIELD

Concern: "Make sure it doesn't blast people that had a bad experience or asked for refunds"

Resolved: Built a 3-layer protection shield. Past clients only enter if tagged `one-time-good`. All workflows evaluate pre-send guardrails, and Workflow C acts as an instant circuit breaker upon tagging `bad-experience` or `refund-requested`.

ZERO DISCOUNTS

Concern: "Let's not do promos, client did not allow promos"

Resolved: Completely removed all percentage-off and dollar-off incentives. All follow-up copy centers on **priority weekend scheduling**, **custom cleaning checklists**, and **dedicated cleaner consistency**.

YELP CHAT BUBBLE

Concern: "Yelp messages must land where the customer actually looks"

Resolved: Outbound messages to Yelp leads are dispatched via Yelp's Relay Email (`leadsapi+...`). Yelp instantly translates these into push notifications and native in-app chat bubbles with zero carrier SMS filtering risk.

2. Live Workflow Directory in GoHighLevel

Live & Published

WORKFLOW NAME IN GHL	WORKFLOW ID	AUDIENCE	TRIGGER EVENT	DELIVERY CHANNEL	KEY SAFETY GUARDRAILS
Quote Follow-up Drip	`12aec0b0...`	Yelp Leads	Opportunity moved to *Quoted*	Yelp Email Relay	Stop on Response = ON; Exits immediately if booked.
No Answer Re-engagement	`b2888301...`	Yelp Leads	Opportunity moved to *No Answer*	Yelp Email Relay	Stop on Response = ON; Day 5 polite wrap-up.
(Meta & Web Leads) 30-Day Long-Term Nurture	`03b32e24...`	Meta / Web Leads	Stage → *Automated Sequence* OR Tag: `nurture-active`	SMS + Email	Suppressed if `bad-experience`, `refund`, or `customer`.
Upsell Recurring Cleaning	`5028fff2...`	Past Clients	Contact Tag Added: `one-time-good`	SMS + Email	Suppressed if `customer-recurring`, `refund`, or `bad-experience`.
Bad Experience Alert Workflow	`e81ce855...`	Any Contact	Tag Added: `bad-experience`, `refund`	Internal Staff Alert	**Circuit Breaker:** Ejects contact from all drips, applies `sms-suppressed`.

3. Nurturing Sequences & Zero-Discount Copy Blueprint Value-Based Copy

Design Principle: Messages sound human, polite, and consultative. Follow-ups stop immediately once a customer responds or books.

Yelp Quote Follow-Up (Touch 1 — 24 Hours Post-Quote) Yelp Email Relay

"Hi {{contact.first_name}}, Brandon here from Ascend Cleaning! Just following up to see if you had any questions on the estimate we sent for your {{contact.yelp_service_type}}? We'd love to take care of your home — just reply directly here on Yelp and we'll take care of it right away!"

Yelp Quote Follow-Up (Touch 2 — 72 Hours Post-Quote / Final Touch) Yelp Email Relay

"Hi {{contact.first_name}}, wanted to touch base one last time regarding your {{contact.yelp_service_type}} estimate. We still have openings for this coming week and would love to get your home sparkling clean! Let us know if you'd like us to hold a spot for you — just reply here anytime."

Meta/Web 30-Day Nurture (Day 7 — Priority Scheduling & Customization) SMS + Email

"Hi {{contact.first_name}}, Brandon from Ascend Cleaning! Our calendar fills up quickly toward the weekend — would you like us to reserve a preferred morning or afternoon spot for your home? Let us know what day works best! 📅"

Past Client Recurring Upsell (Touch 1 — 14 Days Post-Clean) SMS (Cleaners & Consistency)

"Hi {{contact.first_name}}! Hope your home has been feeling fresh since your clean with Ascend Cleaning! ✨ Most of our clients prefer having regular bi-weekly or monthly upkeep so the house stays effortlessly clean with the same dedicated cleaner. Would you like us to lock in a regular schedule for you?"

4. Daily Staff Operating Procedures (SOP) Team Action Guide

1. New Yelp Lead Intake

1. Lead automatically lands in GHL **Conversations** & Pipeline 5 (*New Leads*).
2. Review questionnaire (Bedrooms, Bathrooms, Notes) in custom fields.
3. Send customer greeting and initial estimate inside the chat thread.

2. When a Quote is Sent

1. Drag opportunity card from *New Leads* to **Quoted**.
2. This triggers the 24h & 72h automated Yelp follow-up sequence.
3. Sequence automatically halts as soon as customer replies.

3. Safety Disarm: Unhappy / Refund

1. If customer complains or requests a refund, open their contact card.
2. Apply tag: `bad-experience` OR `refund-requested`.
3. **Circuit breaker activates:** Contact is instantly ejected from all marketing, SMS is suppressed, and management is alerted.

4. Post-Cleaning Routine

1. Following a clean, confirm customer satisfaction.
2. If clean was a success, apply tag: `one-time-good`.
3. In 14 days, the system follows up to lock in their recurring schedule.
4. *If unverified, use `one-time-unknown` to keep them safe from automated messages.*

5. Technical Stack & Tag Reference Backend Registry

ASCEND TAG NAME	TAG ID IN GHL	SYSTEM ROLE & AUTOMATION BEHAVIOR
`one-time-good`	`cslTpsdx6gBT9cyZuERD`	**Whitelist Trigger:** Enrolls satisfied clients in 14-day recurring re-booking drip.
`bad-experience`	`J19UoHX5XTd33wAnkxAX`	**Circuit Breaker:** Freezes all marketing, ejects from drips, tags `sms-suppressed`.
`refund` / `refund-requested`	`HvmnbFn...` / `h9NduPx...`	**Circuit Breaker:** Universal exclusion from all promotional & follow-up messaging.
`customer-recurring`	`fl5Nj3tN3LRJSRAISKWA`	**Suppression Tag:** Prevents pitching recurring cleans to existing recurring customers.
`sms-suppressed`	`m1NdRuoH2Yxs9ofr7UVb`	**Compliance Tag:** Globally blocks all outbound automated SMS messages.
`source: yelp` / `yelp-lead`	`wgh8uia...` / `TiW9QrY...`	**Source Identifier:** Directs lead through masked Yelp Email Relay pipeline.

Infrastructure Health: Dedicated Render middleware (`https://cg-lead-bridge-ascend.onrender.com`) and Direct PIT Token API Upsert (`pit-96e543f6...`) are live and active.
